Surprise package

Two surprises. We've changed the name from "Dominion" to "Imperial" because a cartridge as good as the "Sabretip" deserves the greatest name in sporting ammunition. We've also improved the packaging for all CIL centre fire rifle cartridges. It's more than 30% smaller than before so it takes less space in your pocket. Inside, the cartridges are suspended in sealed twin cardboard "clips". This prevents cartridges from spilling or rattling around when you remove a "clip". (Makes the pickin' easy, too.)

Look for the new "Imperial" package with the world's first nylon-tipped bullet inside. "Sabretip"—smooth feeding, flat shooting, deadly accurate!
